

19-inch chassis cooling solution

Overview

These systems combine a 19-inch server enclosure with a fully built-in active cooling module, creating a self-contained solution that does not require a separate air-conditioning system or additional room cooling. Maximize the performance and longevity of your 19-inch rack systems with Penn Elcom's professional-grade rack fans and cooling solutions. HEITEC is expanding its product portfolio for 19-inch cooling solutions in summer 2025 with a new 1 U fan subassembly, addressing a problem that is still. SOLITHERM 19" RACK are compressor cooling units and air / water heat exchangers in 19" pitch size. They guarantee efficient heat dissipation to protect the existing electronics and are ideally suited for use in data centers and server rooms. The HRM operates silently and is inspired by the principles of Open Compute, providing an innovative, scalable solution for modern. The 19 inch chassis (482.6 mm width) ensures global compatibility across industries. Surface finishes like powder coating.
