

24-core fiber optic communication cable

Overview

- 24 Core fiber optic cable for efficient and high-capacity data transmission. The optical fiber elements are typically individually coated with layers and contained in a protective tube suitable for the environment where the cable will be deployed. Then, two layers of aramid fibers are twisted bidirectionally for reinforcement, and finally a polyethylene outer sheath or an electric tracking. 24 Fiber Fiber Optic Cables are available at Mouser Electronics. 24 Core GYTC8S Fiber Optic Cable Armor Stranded Loose Tube Steel Wire Strength Waterproof Figure 8 Self Supporting Outdoor GYTC8S is a typical self supporting outdoor fiber optic cable, suitable for aerial applications; The cable have nice moisture resistance performance and crush resistance. Indoor, Tight Buffered 900nm, Optical fibre Cable, LSZH, Multimode 50/125nm OM4, 24 Core The optical fibre is made of high pure silica and germanium doped silica.
