

28s Fiber Optic Fusion Splicer for Dual-Mode Optical Cables

Overview

The Fujikura 28S+ is a state-of-the-art fusion splicer designed for the telecommunications industry, renowned for its precision in splicing fiber optic cables. Engineered with durable materials, it ensures reliability in rugged field conditions. For Mass fusion. Attention all slot communication experts! today i will give you a handy gadget - saifian a-28s optical fiber fusion splicer This splicing machine not only has automatic calibration docking technology, but also has high-precision splicing capabilities, which can easily cope with the connection needs. Convenient to use: equipped with a 5-inch screen with high resolution of 800 x 480, the fibre fusion splicer offers up to 300x magnification. Fiber Optic Fusion Splicers are advanced tools used to permanently join two optical fibers through the application of heat. The automatic intelligent fusion splicer. Alibaba.
