

720-core optical distribution box splicing

Overview

This instruction describes the process for installation of the Optical Splice enclosures (OSE-720) manufactured by Corning Optical Communications. Description: Dome Fiber Optic Splice Closure 720 Core. OEM ODM Optical Fiber Distribution Frame ODF Rack 19 inch 720cores 2m 2. This optical distribution terminal box is designed for the connection and dispatch of outdoor optical fiber communication links, featuring an artistic appearance, convenient operation, and long service life. The OSE-720 (Figure 1) enclosures are designed to hold cable slack and store splice trays in five individual compartments. It is widely used in network central office. Feature: Network odf distribution frame support 720core large capacity, high density Modular structure, 72 fibers fusion unit rack mount odf, splicing &. The 720-core ODF (Optical Distribution Frame) Fiber Distribution Cabinet is a high-capacity fiber management solution designed for telecom central offices, data centers, and large-scale FTTx deployments. It has all-weather protection function.
