

8-core fiber optic distribution cabinet for security applications

Overview

It integrates fiber splicing, splitting, distribution, storage, and cable connection in one solid protection box. Remark: Compatible with Corning + HuaWei + waterproof adaptor. Feature: The body is made of high-quality engineering plastic with good strength. The 8 port Fiber Distribution Box is sturdy in structure, lightweight in size, and easy to install. This distribution box can connect. Premium series are the G657A/B series patchcord meet Bending loss insensitive optical fiber for access networks, the first option of Fiber-to-The-Home (FTTH) network. OM3/OM4/OM5, Widely used in Data Center, at high speed to support Ethernet Data Transmission. Suitable for both indoor (telecom rooms, basements) and outdoor (exterior walls, utility poles) installations, protected against dust and water per IP55 standards. With the capacity to accommodate up to 8 subscribers, it serves as the termination point for the feeder cable. You can connect it with the drop cable.
