

96-core fiber optic distribution box

Overview

The SJ-ODB-96-SMC fiber optic distribution box is a high-capacity, versatile solution designed for efficient management and distribution of fiber optic cables in various network environments. Constructed from high-quality engineering plastic, it offers excellent resistance to dust, moisture. 96-port fiber optic distribution cabinet with floor-standing outdoor design. Powder-coated cold rolled steel construction with IP55 protection. Multiple splitter slots and high-density splice tray capacity for large-scale FTTH access node deployments. 96-port capacity consolidates fiber. Metal 96 Core Fiber Optic Termination Box is currently being widely used for distributing outdoor optical cable in indoor and outdoor conditions. Managed to provide maximum fiber terminations within a limited footprint, this cabinet serves as a robust bridge between outdoor feeder cables and indoor distribution.
