

ASR1002 optical module compatibility

Overview

For information about the SFP transceiver modules that are compatible with the Cisco ASR 1002-X Built-in Gigabit Ethernet Ports (6x1GE), refer to the “Modular Optics Compatibility” section in the Cisco ASR 1000 Series Aggregation Services Routers SIP and SPA Hardware Installation. For information about the SFP transceiver modules that are compatible with the Cisco ASR 1002-X Built-in Gigabit Ethernet Ports (6x1GE), refer to the “Modular Optics Compatibility” section in the Cisco ASR 1000 Series Aggregation Services Routers SIP and SPA Hardware Installation. The Cisco ASR 1002-X Router is a compact, small form factor router (SSF) that fulfil customer demands such as low power consumption and decreased usage of rack space. The Cisco ASR 1002-X Router supports three half-height SPAs and a built-in 6xGE SPA, as also all the general-purpose routing and. Build network access that's wireless-first, cloud-driven, data-optimized, and highly secure. It's all the benefits of Cisco, now as-a-service. Boost speed, agility, and scale with on-demand solutions that intelligently adapt to your business needs. Help keep your. ASR 1000 platform with SPA cards: Software support on the ASR 1000 modular platforms is determined by the platform on which the SPA is installed. Refer to the SPA release notes for the correct software release. Get a quote via , or leave us a message on the contact us. Cisco ASR 1002 router delivers the route processor for control plane embedded the services processor for data plane traffic as well as the carrier card which is designed to house I/O modules, share port adopters all integrated in the chassis. The integrated embedded service processors offer 4 levels of system performance: 5Gbps which is default, 10, 20, 36Gbps all through software license upgrade without need for any.

Re: ASR 1002-F Compatibility Question

So I have a Cisco ASR 1002-F and with no module I think it can only do 1 gig links. While looking at the modules I can see SPA-4XOC12-POS has 4 interfaces that can do 10 gig SFP's, but

Cisco ASR 1000 Series Ethernet Line Cards Data Sheet

Cisco ASR 1000 Series Fixed Ethernet Line Card (ASR1000-6TGE) With these line cards, the ASR 1000 Series routers can achieve greater Ethernet density and a lower price per port.

Cisco ASR 1000 Series Router Hardware Installation Guide

For information about the SFP transceiver modules that are compatible with the Cisco ASR 1002-X Built-in Gigabit Ethernet Ports (6x1GE), refer to the "Modular Optics Compatibility"

SFP for ASR 1002-x

We have ASR-1002-X and I need SFP's to use with the built-in 6 Ethernet ports. It seems like all GE-T should work but i tried the following m

Cisco ASR 1002-X Router Overview and Installation

For information about the SFP transceiver modules that are compatible with the Cisco ASR 1002-X Built-in Gigabit Ethernet Ports (6x1GE), refer to the "Modular Optics Compatibility" section in the Cisco

ASR1002-HX= Datasheet Overview

Overview Cisco ASR1002-HX System is one of the ASR 1000 Series routers, providing 4x10GE+4x1GE enabled ports upgradeable to 8xGE and 8x10GE with a license, 2x Power Supplies, and optional crypto.

Cisco ASR 1000 Series Router Compatible Parts & Part Numbers

Genuine, verified-fit parts for the Cisco ASR 1000 Series Router — Power Supplies, Modules & Line Cards, Licenses, Transceivers. We stock 23 compatible SKUs with same-day US shipping, Net 30

Cisco ASR1002

**For more information about the small form-factor pluggable (SFP) transceiver modules that are compatible with Cisco ASR 1002 Built-in Gigabit Ethernet Ports (4x1GE), refer to the Modular Optics

ASR module that support 10 G traffic throughput

Hi Guys, i have ASR 1002 and i want to extened it to module that support 10 G i searched and found the module : ... i just want to make sure its compatible with my hardware. here is

ASR1002 Datasheet

The Configuration The ASR1002 should be configured with some modules and accessories for normal operation. Table 2 shows the recommended configuration.

ASR1002-X Datasheet Overview

The Configuration The ASR1002-X should be configured with some modules and accessories for normal operation. Table 2 shows the recommended configuration.

Cisco ASR 1001-HX Router and Cisco ASR 1002-HX Router

This chapter contains information about the supported hardware components on the Cisco ASR 1001-HX Router and Cisco ASR 1002-HX Router, and contains the following sections:

CISCO ASR 1001-X HARDWARE INSTALLATION MANUAL Pdf

Cisco ASR 1001-X Power Supply Fans The fans in the power supply module of the Cisco ASR 1001-X Router are used for cooling the power supply module itself while system-level cooling is provided by

Cisco ASR 1002 Manuals | ManualsLib

View online or download Cisco ASR 1002 Hardware Installation Manual, Software Configuration Manual, Replacing, Common Criteria Operational User Guidance And Preparative Procedures.

Cisco 10G SFP Compatibility Matrix

The table below is a Cisco 10G SFP compatibility matrix list, which is searched and organized through Cisco optics-to-device compatibility matrix tool.

Cisco ASR 1000 Series Routers Component Overview

Previously released Cisco ASR1000-RP2 and Cisco ASR1000-SIP10 modules are not compatible when inserted in the Cisco ASR 1013 Router. If an incompatible component is inserted into the Cisco ASR

Cached :Cisco Gigabit Ethernet Transceiver Modules Compatibility Matrix

Established since 2009.A leading manufacturer of fiber transceivers from 155M to 100G,Including AOC & DAC.Your one stop purchase partner on FTTX products.

Cisco ASR 1001-HX Router and Cisco ASR 1002-HX Router

The module must be supported with one hand because of its length. Note The direction of the airflow is different for the Cisco ASR 1001-HX Router and the Cisco ASR 1002-HX Router as shown by the

Cisco ASR 1002-HX Router Hardware Installation Guide

The following table lists cautions, regulatory compliance statements, and requirements for the Network Equipment Building System (NEBS) certification from the Telcordia Electromagnetic Compatibility

Cisco ASR 1000 Series Aggregation Services Routers

Similar compatibility exists for the Cisco ASR 1000 Series Route Processor 2 (ASR1000-RP2) across Cisco ASR 1004, ASR 1006, and ASR 1013 Routers and for Cisco ASR 1001 and ASR 1002-X

Cisco Optics-to-Device Compatibility Matrix Results

ASR 1000 platform with SPA cards: Software support on the ASR 1000 modular platforms is determined by the platform on which the SPA is installed. Refer to the SPA release notes for the correct software
