

Belgian manufacturer of direct-buried optical fiber communication cables

AI Overview

Kabelwerk Eupen AG and Tratos Group are leading Belgian manufacturers of direct-buried optical fiber communication cables. Kabelwerk Eupen AG, through its business unit Eupen Cable, is a European leader in cable production, including fiber optic cables suitable for direct-buried installation. The company offers a wide range of telecommunications cables, including copper, hybrid, and fiber optic cables, with insulation and jacket compounds developed in-house to meet high-quality and safety standards. Their products comply with national and international standards and can be customized according to customer specifications, making them suitable for underground deployment in industrial, urban, and infrastructure projects. Eupen Cable has extensive experience supplying cables for large-scale projects, such as railway tunnels, demonstrating their capability in durable, long-lasting installations. Tratos Group is another prominent European fiber optic cable manufacturer with a strong presence in Belgium. They specialize in high-performance optical fiber cables, including low smoke, zero halogen (LSZH) and fire-resistant variants, which are suitable for direct-buried applications. Tratos offers microcables and high-fiber-density solutions that are compact, flexible, and designed for air-blown or underground installation. Their cables are tested for extreme operating temperatures (-30°C to +60°C) and are widely used in telecommunications networks, including broadband and FTTH deployments. Tratos' experience in producing robust, environmentally resistant cables makes them a reliable choice for direct-buried optical fiber installations. Additional Belgian Companies Other Belgian companies involved in fiber optic solutions include Tevelec Limited, NetTech, and Norden Communication, which provide fiber optic cables and assemblies, though th...
