

CIF Price SFP Optical Module SFP

AI Overview

The CIF price of SFP optical modules varies widely, typically ranging from \$10 for basic copper modules to several hundred dollars for high-speed, long-range fiber modules, depending on brand, type, and shipping costs.

Factors Affecting CIF Price

Module Type and Speed: SFP modules come in various types, including 1G, 10G, 25G, 40G, and 100G, with fiber (SR, LR, ER) or copper (RJ45) options. Fiber modules for long-range transmission are generally more expensive than short-range or copper modules [6].

Brand and OEM vs Third-Party: Branded OEM modules (Cisco, Juniper, Arista) are priced higher due to guaranteed compatibility, certifications, and support. Third-party or compatible modules are often significantly cheaper while still meeting MSA standards.

Performance Features: Modules supporting longer distances, higher speeds, enhanced error correction, or industrial-grade temperature tolerance cost more. For example, a 10GBASE-LR SFP module for 10 km can be priced higher than a 10GBASE-SR module for 300 meters.

Quantity and Bulk Discounts: Ordering in bulk can reduce the per-unit cost. Some suppliers, like QSFPTEK, offer additional discounts for orders of 10+ pieces.

Shipping and Insurance (CIF): CIF pricing includes the cost of the module, insurance, and freight to the destination port. Shipping costs depend on weight, distance, and carrier. For small SFP modules, shipping is usually modest, but insurance for high-value modules can increase the CIF price.

Typical Price Ranges

- Copper SFP (1G, short-range): \$10–\$50 per module
- Fiber SFP (1G–10G, short to medium range): \$30–\$150 per module
- High-speed or long-range fiber SFP+ (10G–100G, LR/ER): \$150–\$500+ per module

Sourcing Recommendations

For cost-sensitive projects, consider reputable third-party modules that comply with MSA standards. For critical infrastructure requiring guaranteed compatibility, OEM modules are recommended despite higher CIF costs. Always factor in shipping, insurance, and customs duties when calculating CIF prices for international procurement. By combi...
