

CIF price of 100kW communication power system exported from Ukraine

AI Overview

The CIF price of a 100 kW power supply system exported from Ukraine depends on the product cost, shipping, and insurance, typically ranging from \$35,000 to \$50,000 per unit depending on specifications and destination port.

Product Cost A 100 kW power conversion system (PCS) suitable for telecom or energy storage applications from Ukrainian suppliers, such as Hitek Energy or GSO, has a base price that can range from \$25,000 to \$40,000 per unit, depending on features like IP65 protection, efficiency (~97%), and communication interfaces (). Customization, certification, and additional modules may increase the price.

CIF Components CIF (Cost, Insurance, and Freight) includes:

- Product cost:** The factory or FOB price in Ukraine.
- Freight:** Ocean shipping to the destination port. For a 100 kW system weighing ~820 kg, shipping in a standard container may cost \$2,000–\$5,000, depending on the port and carrier ().
- Insurance:** Minimum coverage under ICC Clause C, typically 1–2% of the product value ().

Estimated CIF Price Assuming a base product cost of \$30,000, shipping of \$3,000, and insurance of \$600 (2% of product value), the CIF price would be approximately: $\text{CIF Price} \approx \$30,000 + \$3,000 + \$600 = \$33,600$

For higher-end systems with advanced features or urgent shipping, the CIF price could reach \$45,000–\$50,000 per unit.

Additional Considerations

- Port of destination:** CIF costs vary significantly depending on distance and port fees.
- Customs and import duties:** Not included in CIF; the buyer pays these upon arrival.
- Bulk orders:** Ordering multiple units may reduce per-unit shipping costs.
- Supplier negotiation:** Ukrainian suppliers may offer discounts for large orders or long-term contracts.

For precise CIF pricing, it is recommended to contact the supplier directly with the destination port and required specifications (). This ensures accurate freight, insurance, and handling costs are in...
