

Cable tray manufacturer s seismic support

AI Overview

Leading manufacturers of seismic support systems for cable trays include Eurotray, Eaton (TOLCO), Guangdong Tianlai, Chuyu, and Legrand, offering engineered solutions for earthquake-resistant installations. Key Manufacturers and Solutions

1. Eurotray Support Systems Eurotray provides seismic support systems designed to secure cable trays and other non-structural components against seismic movement. Their solutions include suspension elements and mechanical support systems that prevent destructive independent movement during earthquakes, ensuring structural stability and safety in commercial and industrial buildings .
2. Eaton (TOLCO) B-Line Series Eaton's B-Line series with TOLCO seismic bracing offers a fully integrated solution for cable tray installations. The system includes bolted framing, hold-down clamps, and guides pre-approved for seismic applications. Eaton provides engineering services, including PE-stamped designs for all U.S. states and Canada, pre-approved assembly drawings, and faster installation methods that reduce labor time by up to 50% .
3. Guangdong Tianlai Steel Conduit & Cable Tray Co., Ltd. Guangdong Tianlai specializes in seismic cable tray systems with dual-direction "longitudinal + transverse" braces forming triangular stabilization structures. Their weld-free installation adapts to diverse construction scenarios. The company has extensive experience in large-scale projects, including the 2008 Beijing Olympics and 2010 Guangzhou Asian Games, providing high-load-bearing, modular, and anti-interference cable trays .
4. Chuyu Seismic Bracing Systems Chuyu offers seismic bracing systems for cable trays, HVAC ducts, and piping. Their products are designed for commercial, industrial, and large infrastructure projects, featuring simple installation without cutting, welding, or painting. The systems are corrosion-resistan...
