

Cable tray quotation sheet 2022

AI Overview

Cable tray prices in 2022 varied widely, ranging from \$2 to \$25 per meter depending on material, type, size, and supplier, with ladder-type galvanized steel trays being the most common. Price Range and Cost Factors In 2022, the average cable tray price per meter ranged from \$2 to \$25, influenced by material, type, size, surface finish, and order quantity. Key cost drivers included:

- Material:** Galvanized steel was the most common, balancing durability and cost; stainless steel was more expensive due to corrosion resistance; aluminum was lightweight but pricier; plastic trays were budget-friendly but unsuitable for heavy loads.
- Coating:** Hot-dip galvanization (HDG) offered long-term durability but higher upfront cost; powder coating provided wear protection; pre-galvanized trays were cheaper but less durable in corrosive environments.
- Tray Type:** Ladder trays supported heavy cables and were more expensive, while wire mesh or perforated trays were cheaper and suitable for lighter loads.
- Labor and Installation:** Skilled labor, equipment depreciation, and energy consumption for cutting, welding, and finishing added to overall costs.
- Shipping:** Heavier trays increased transport costs.

Standard Lengths and Fittings Most suppliers in 2022 offered standard lengths of 2.4 meters for ladder-type galvanized trays. Fittings such as coupler plates were priced per piece, for example:

- 25/50 mm height trays: Coupler plates ~16 INR per piece
- 75/100 mm height trays: Coupler plates ~30 INR per piece

Minimum order quantities and delivery times varied by supplier, often requiring 50 meters minimum and delivery within 3-5 days. GST or other taxes were additional.

Market Overview The global cable tray market in 2022 was valued at \$5 billion USD, with ladder-type trays in high demand for heavy-duty industrial applications such as oil, gas, renewable energy, and infrastructure projects. Other applications included commercial buildings, data centers, IT facilities, and public infrastructure. The market was driven by industrial expansion, technological innova...
