

Cable tray support and hanger unit price

AI Overview

Cable tray supports and hangers typically range from \$5 to \$50 per unit, depending on type, material, and load capacity.

Overview of Cable Tray Supports and Hangers

Cable tray supports are brackets used to secure cable trays to walls or other structures, while cable tray hangers (also called suspension stems or ceiling brackets) suspend trays from ceilings or overhead structures for safe and organized cable routing. These components are essential in industrial plants, commercial buildings, data centers, and other installations to prevent mechanical damage, improve airflow, and ensure compliance with electrical standards.

Factors Affecting Price

Material: Supports and hangers are commonly made from steel, stainless steel, or zinc-plated steel. Stainless steel or heavy-duty galvanized options are more expensive due to corrosion resistance and durability.

Duty Rating: Light-duty supports are cheaper, while medium- and heavy-duty brackets designed for high load capacities cost more.

Design and Profile: U-profile, I-profile, or C-channel hangers with adjustable perforations for height and load flexibility are priced higher than simple fixed brackets.

Size and Length: Longer suspension stems or larger support brackets increase material usage and cost.

Brand and Certification: Industry-leading brands like Legrand, Schneider Electric, and Phoenix Contact may charge a premium for certified, high-quality products.

Typical Price Ranges

- Light-duty wall-mounted supports: \$5–\$15 per unit
- Medium-duty supports or small ceiling hangers: \$15–\$30 per unit
- Heavy-duty hangers, trapeze brackets, or adjustable suspension stems: \$30–\$50+ per unit

For large-scale projects, bulk purchasing may reduce the per-unit cost. Prices can also vary by region and supplier, so it is recommended to request quotes from distributors such as RS Components, Ekabel24, or Amazon for exact pricing.

Conclusion

The unit price of cable tray supports and hangers depends on material, duty rating, design, and brand. For budgeting purposes, expect \$5–\$50 per...
