

Category 6 network cable shielded network patch panel

Overview

Category 6 patch panels are designed to exceed TIA/EIA-568-B. 2-1 component, permanent link and channel level performance specifications providing usable bandwidth beyond 250MHz and are backward compatible with lower level cabling systems. Our Cat6 patch panels come in a range of terminations including standard IDC Punchdown for bulk cable installations to easy install coupler panels featuring RJ45 sockets on the front and back to make patching between devices even more cost effective. Our shielded Cat5e panels will ensure nothing. Techlogiks Cat 6 Shielded modular patch panel utilizes quad frame modules offered with 8-contact inserts wired to Insulation Displacement Connectors (IDC). Fully automatic press-fit production of PCB assembly to ensure consistency quality and complies with international standards. 1000BASE-T.
