

Direct supply of network racks from Finland

AI Overview

Network racks and cabinets can be sourced directly from Finnish suppliers such as APS Finland and Mouser Electronics, offering a range of 19" floor-standing racks, enclosures, and accessories with warranties and customization options. Finnish Suppliers APS Finland specializes in 19" network racks and accessories, including floor-standing models with glass doors and cable management solutions. Their RA19 series comes with a 25-year system warranty, and they offer patch panels, cable lacing supports, and other rack accessories suitable for telecommunication and data center environments. APS Finland provides both standard and customizable configurations, making it suitable for enterprise or specialized IT setups. Mouser Electronics Finland offers a wide inventory of racks and cabinets, including datasheets and pricing for immediate procurement. While primarily a distributor, Mouser provides direct shipping within Finland, making it convenient for businesses seeking ready-to-deploy solutions. International Options with Finnish Operations Enconnex manufactures configurable server, network, and data center racks. Their InfiniRack cabinets are highly customizable, supporting edge computing, device testing, and traditional data center applications. Enconnex ships fully assembled racks with optional pre-loaded PDUs, ensuring fast deployment and protection during transit. While based internationally, they can supply Finnish customers directly, offering premium quality and extensive configuration options. Considerations for Direct Supply Warranty and Support: APS Finland offers long-term warranties (up to 25 years), while Enconnex provides robust support and protective shipping for sensitive equipment. Customization: Both APS Finland and Enconnex allow for tailored configurations, including cable management, patch panels, and specialized enclosures. Delivery an...
