

EU galvanized cable tray prices

AI Overview

European galvanized cable trays typically range from €50 to €200 per unit depending on size, type, and galvanization method. Price Range and Factors The cost of galvanized cable trays in Europe varies based on several factors:

- Dimensions:** Smaller trays (e.g., 100 x 60 mm, 2 m length) are generally priced around €50–€80 per unit, while larger trays (e.g., 100 x 300 mm, 3 m length) can reach €150–€200 or more.
- Galvanization Type:** Hot-dip galvanized trays (HDG) are more expensive due to thicker zinc coatings and higher corrosion resistance, suitable for outdoor or industrial environments. Pre-galvanized trays (PG) are cheaper and suitable for indoor or light industrial use.
- Material and Thickness:** Carbon steel trays with 0.8–1.0 mm thickness are common, with stainless steel options costing more for enhanced corrosion resistance.
- Certifications:** CE certification, ISO standards (ISO 14001, ISO 45001), and fire resistance ratings (E90) can influence pricing.
- Supplier Options**
- Marketplaces:** Europages lists multiple European suppliers where buyers can request price lists and contact wholesalers directly.
- Specialized Manufacturers:** Companies like Eurotray and Eurostrut provide a wide range of galvanized cable trays, including pre-galvanized, hot-dip, and custom solutions for industrial, data center, and food manufacturing applications.
- Online Retailers:** Platforms like ekabel24.de offer standard sizes with detailed specifications, including mounting accessories and connection parts.
- Additional Considerations**
- Bulk Orders:** Prices often decrease with larger quantities. Requesting a quote from suppliers is recommended for accurate pricing.
- Accessories:** Include costs for connectors, bolts, nuts, and suspension systems, which are essential for installation.
- Delivery and Import:** Shipping costs and import duties may affect the final price depending on the country of purchase.

For precise pricing, it is advisable to contact suppliers directly through B2B platforms or manufacturer websites to obtain updated quotes based on your required dimension...
