

Energy Internet Service Providers

AI Overview

Major Australian providers like Origin Energy and AGL offer both energy and internet services, with potential discounts for bundling, while government tools like Energy Made Easy help compare plans. Government Comparison Tools For households and small businesses in NSW, ACT, Queensland, South Australia, and Tasmania, the Energy Made Easy website allows you to compare electricity and gas plans from all retailers. It provides a free, independent service to find the best plan based on your usage, location, and preferences, even if you do not currently have an energy provider. Major Providers Offering Bundles Origin Energy and AGL are two of the largest providers offering both energy and internet services: Origin Energy: Offers electricity, natural gas, and LPG plans across NSW, Victoria, QLD, SA, and ACT. Customers can bundle NBN or fibre internet with energy plans for a \$10 monthly broadband discount. Plans may include features like Everyday Rewards points, solar feed-in tariffs, and solar-specific offers. AGL: Provides electricity and gas in NSW, VIC, QLD, and SA, with gas also available in WA. AGL offers home internet and mobile services, with discounts of up to \$15 per month on broadband when bundled with energy, and \$10 off mobile plans. Some plans include Netflix subscriptions or specialized seniors plans. Bundling Considerations While bundling energy and internet can be convenient, it is not always the cheapest option. Some providers offer discounts for bundling, but comparing electricity, gas, and internet plans separately may result in lower overall costs. Bundling may be more beneficial if you value convenience and additional perks like streaming services or loyalty points. How to Choose the Best Provider Compare prices and plans: Use tools like Energy Made Easy or Canstar to evaluate electricity, gas, and internet options. Check for bundling discounts: Look for providers offering combined energy and internet plans, but verify if the discount outweighs separate plan savings. Consider service quality: Customer...
