

Explosion-proof distribution box with easy access

Overview

This system protects electrical connections and supports smooth control, safe access, and easier maintenance. This explosion-proof distribution box is built for reliable protection in demanding industrial settings. Sparks or overloads can damage equipment and put people at risk. Downtime can also disrupt daily operations. Our control safety cabinet, socket, maintenance lighting, power supply switch, operation box. ·Flameproof enclosure (Ex db), which can be used as feed distribution equipment in control and distribution system (such as distribution box, switch box of main circuit, control box, terminal box or motor starting box etc.) Enclosure: 304 stainless steel, 316L stainless steel and Q235. Available with a wide range of built in components. Products are widely used in engineering projects such as. BXM (Explosion Proof) Distribution Box is a standard distribution box for Heat Trace Cable b of electricity antifreeze, using a hanging or vertical box structure, power cable entry at the bottom of the box, IP54 protection Level, a variety of air circuit breakers are installed, with leakage.
