

External cover plate of distribution box

AI Overview

External cover plates protect distribution boxes from weather, impact, and unauthorized access, and are available in metal, plastic, and weatherproof designs for indoor and outdoor use.

Types of External Cover Plates

- Metal Covers:** Durable and impact-resistant, metal covers are suitable for both indoor and outdoor distribution boxes. They are often UL-listed and corrosion-resistant, providing long-term protection against environmental exposure and physical damage. Options include flat blank covers, raised device covers, and covers with knockouts for wiring access.
- Plastic and Weatherproof Covers:** These covers are lightweight, UV-resistant, and designed for outdoor use. They often comply with the National Electric Code® for damp or wet locations and are available for single or multiple gang boxes, accommodating standard switches, GFCI outlets, and Decora® devices.
- Specialized Covers:** Some covers are designed for industrial or harsh environments, including flanged or strap-mounted devices, junction boxes, and utility boxes. These may include features like gasket seals, lockable enclosures, and reinforced construction for added security and weatherproofing.

Considerations for Selection

- Box Size and Shape:** Covers are available for square, rectangular, octagonal, and round boxes. Ensure the cover matches the box dimensions and mounting style.
- Material and Durability:** Choose metal for high-impact areas or plastic for UV and moisture resistance. Some products contain recycled materials for sustainability.
- Weatherproofing:** For outdoor installations, select covers rated for wet or damp locations with proper gaskets and seals.
- Code Compliance:** Verify that the cover meets local electrical codes and UL listings for safety and reliability.

Where to Purchase

External cover plates can be purchased from suppliers like Amazon for general outdoor and weatherproof covers, McMaster-Carr for a wide selection of metal and industrial-grade covers, and specialized vendors like Shilden Strut for he...
