

Factory column cable tray support price

AI Overview

Factory prices for cable tray support columns vary depending on material, size, and load capacity, with direct manufacturers offering lower costs and customizable options.

Overview of Cable Tray Support Columns Cable tray support columns are essential components for mechanically supporting cable trays in industrial, commercial, and infrastructure projects. They are designed to hold cable trays at specific heights and ensure safe, organized routing of electrical and data cables. Support columns can be made from steel, stainless steel, aluminum, or corrosion-resistant FRP, and are available in various heights and load capacities to suit different applications.

Factors Affecting Factory Price

- Material:** Steel and aluminum are common, with FRP or galvanized finishes increasing durability and cost.
- Size and Height:** Standard heights range from 50mm to 150mm for light to heavy-duty applications, with taller or custom columns costing more.
- Load Capacity:** Columns designed for heavy-duty power cables or long spans are priced higher due to stronger construction.
- Finish and Coating:** Galvanized, powder-coated, or painted finishes improve corrosion resistance and affect pricing.
- Customization:** Factory-direct orders often allow custom dimensions, accessories, and mounting options, which can influence the price.

Factory Direct Purchase Example Zhenjiang Dongjie Electric Appliance Manufacturing Co., Ltd in Yangzhong City, Jiangsu, China, offers factory-direct pricing for cable tray mounting support columns. Benefits include:

- Lower prices due to direct manufacturing
- Reliable delivery times
- Payment options: TT, L/C, PayPal, and Western Union for sample orders
- Quality control: ISO9001, ISO14001, OHSAS18001, China CCC, and SGS certified

The factory is conveniently located about 3 hours from Shanghai airport and 2 hours from Nanjing airport, making visits feasible for international buyers.

Recommendations Contact multiple manufacturers to compare factory prices and shipping costs. Specify material, height, load capacity...
