

Fiber optic patch panel 288

Overview

This RM-288 patch panel has two sections for fiber optic cable entry and exit. It can be pre-configured with up to 24 MTP-LC cassettes, up to 288 pass-through LC, SC, ST, or FC ports, and up to 144 fiber splicing capacity. OptoSpan's Select RM-288 Rack Mount Termination and Splicing Enclosures provide a convenient, secure and organized housing for fiber optic connections and terminations, as well as a central point for splicing fiber optic cables for data center and telecom applications. The machine translated document is now available for download. The Fiber Optic Patch Panel MDF 3U 288S SNP is designed to house up to 288 splices using the FibeRoad™ System in a 19" rack, height 3U. The LCX rack-mount patch panel features up to 144 SC/UPC or 288 LC/UPC ports in 4RU for a standard density application that allows users to maximize rack space into a condensed panel. Amphenol Network Solutions' bulkhead-style fiber optic panels provide cost-effective patch capabilities in an. The Excel Enbeam 1U 19" HD panel provides an expandable and innovative cassette based patching solution.
