

Fireproof sealing of power cable trays

Overview

When cable trays pass through walls or floors, seal openings using fire-rated penetration sealing materials. Do not modify or damage the tray coating or structure during use. 7 products are successfully used to protect cables in high-rise buildings, industrial buildings, and offshore facilities as well as in sensitive areas, such as hospitals, airports, production. AF BAGS are intumescent and ablative fireproof pillows certified under EN 1366-3 for sealing up to EI 240 of cable tray penetrations. Inside a non-combustible fibreglass casing, a high-density concentrate of intumescent components, inert thermal insulators and products with gradual release of. Scope: Firestopping for busway, cable trays, cables, and trunking passing through walls in enclosed electrical installations. A better alternative to link-type seals, the SLIPSIL Plugs utilize a proprietary self-compression design, and have no bolts, nuts or metallic parts that. 3M Fire Barrier Moldable Putty+ is a one-part, halogen-free product designed to firestop electrical outlet boxes and a wide variety of through-penetrations including cable, conduit, insulated pipe and metal pipe, which penetrate fire-rated construction. This organic/inorganic elastomeric sheet is. Flampro offers you approved penetration sealing systems for cable systems as well as pipe and mixed penetration sealing systems, cable ducts, and other fire protection products. Electrical, IT, and telecommunications lines are indispensable for the usage of buildings. To supply the different areas.
