

Flange cable tray price

AI Overview

The price of flange connection cable trays varies widely depending on material, size, and supplier, typically ranging from \$20 to \$150 per meter for standard industrial sizes, with custom or heavy-duty options costing more.

Factors Affecting Price

Material: Cable trays are commonly made from hot-dip galvanized steel, stainless steel, aluminum, or FRP (fiberglass reinforced plastic). Stainless steel and FRP trays are more expensive due to corrosion resistance and durability, while galvanized steel is more cost-effective for general use.

Tray Type and Size: Flange connection trays, such as the SPB-RF system, feature return flanges to protect cables and allow secure connections. Prices increase with tray width, height, and load-bearing capacity. Standard widths range from 50mm to 600mm, and heights from 20mm to 60mm or more.

Accessories and Fittings: Flange connection trays often require connectors, bends, tees, and supports. These fittings add to the overall cost but are essential for safe and compliant installation.

Standards Compliance: Trays meeting DIN EN 61537, IEC, or NEC standards may cost more due to quality assurance and certification.

Supplier and Order Quantity: Prices vary by supplier. Bulk orders or factory-direct purchases (e.g., JLH Electric) can reduce per-unit cost, while small orders from distributors like Graybar may include additional charges.

Typical Price Ranges

- Small, light-duty trays (50–100mm width, 20–40mm height): \$20–\$50 per meter
- Medium-duty trays (150–300mm width, 40–60mm height): \$50–\$100 per meter
- Heavy-duty or wide trays (300–600mm width, high load capacity): \$100–\$150+ per meter
- Custom or specialized trays (stainless steel, FRP, or special coatings): Prices can exceed \$200 per meter depending on specifications

How to Obtain Exact Pricing

Since prices depend on material, dimensions, and quantity, it is recommended to contact suppliers directly for quotes. Suppliers like JLH Electric and Graybar provide custom pricing based on bulk orders, material choice,...
