

Foldable fiber optic cable delivery rack

Overview

Designed to optimise fibre optic cable management, these racks provide advanced solutions that reduce interference and improve airflow. Available with modular options, fibre optic racks can be customised to meet specific needs, ensuring fast installation and simplified. The Flexi Rack series is specially designed for termination and management of many fiber cords. This lightweight rack is made of aluminum and has 19" or ETSI profiles that allow flexible height adjustment when you install an ODF system. Our product offering includes: jumpers (patch cords), multi-fiber cable assemblies, rackmount enclosures, wallmount enclosures, and fiber optic and copper based network components. Panels Sliding. Corning has a wide variety of hardware solutions to choose from to fit your cabling needs. Multilink's rack rail cabinets are insulated to work with air conditioning and heater units, so you can rest easy knowing any sensitive equipment that's inside remains at an operable. Fibre optic racks are critical for data centre IT infrastructures, offering efficiency and reliability. They are a great complement to our pre-terminated fiber optic.
