

Gs2101 Fiber Optic Router

AI Overview

The GS2101 Fiber Optic Router is a dual-band GPON/XPON modem router designed for high-speed fiber internet with multiple LAN, USB, and telephone ports, ideal for home and office networks.

Key Features

- Dual-Band WiFi:** Supports both 2.4GHz and 5GHz bands, providing strong signal coverage, reduced network congestion, and stable high-speed internet for streaming, gaming, and downloads.
- High-Speed Fiber Support:** GPON/XPON interface with up to 2.5Gbps downstream and 1.25Gbps upstream, suitable for FTTH, FTTX, and FTTTB networks.
- Ports:** Typically includes 4 Gigabit Ethernet ports (RJ45), 1 telephone port (RJ11, supporting SIP voice), and 2 USB ports for peripheral connectivity.
- Triple-Play Services:** Supports broadband internet, IPTV, and VoIP services, enabling simultaneous multimedia and communication applications.
- Management & Security:** Web-based management interface (default IP: 192.168.1.1, login: admin/admin), WPA/WPA2 wireless encryption, DHCP, PPPoE, static IP configuration, and wireless AP mode.
- Plug-and-Play Deployment:** Supports remote diagnosis, E2E link monitoring, and NMS-based configuration for easy setup and maintenance.
- Setup and Configuration**
 - Login:** Access the router via web interface using default credentials (admin/admin) or through the NMS system for remote management.
 - WiFi Configuration:** Users can set SSID, password, and configure dual-band settings for optimal coverage and performance.
 - LAN and WAN Setup:** Configure Ethernet ports for wired devices and GPON uplink for fiber connection. Supports PPPoE dial-up, DHCP, and static IP assignment.
 - Security Settings:** Enable WPA/WPA2 encryption, firewall, and optional parental controls to secure the network.
- Performance and Use Cases**
 - High-Speed Internet:** Ideal for fiber internet users seeking stable connectivity for multiple devices simultaneously.
 - Home and Office Networks:** Suitable for streaming, gaming, VoIP calls, and IPTV services without significant latency or congestion.
 - Remote Management:** Allows ISPs or network...
