

How much does a 28-core cable splice box cost

AI Overview

The price of a 28-core fiber optic splice box typically ranges from \$50 to \$150, depending on brand, material, and features.

Overview A 28-core fiber optic splice box is designed to securely splice and manage up to 28 optical fibers. These enclosures are commonly used in aerial, duct, or buried installations and provide protection against environmental factors such as moisture, dust, and temperature fluctuations. They are usually made from durable plastic or engineering PP material and may include features like flame retardancy, mechanical sealing, and modular splice trays for easy fiber management.

Pricing Factors

- Material and Build Quality:** High-quality PP or reinforced plastic enclosures with IP68 sealing tend to be more expensive due to durability and weather resistance.
- Brand and Supplier:** Well-known brands like Corning or Fibconet may charge a premium, while generic or bulk suppliers on platforms like Amazon or Made-in-China offer lower prices.
- Additional Features:** Options such as multiple cable entry ports, adjustable splice trays, and flame-retardant construction can increase the cost.
- Purchase Volume:** Bulk orders often reduce the per-unit price, especially from manufacturers or distributors.

Typical Price Range

- Low-end models:** \$50–\$80, usually basic plastic enclosures suitable for small-scale installations.
- Mid-range models:** \$80–\$120, offering better sealing, multiple cable ports, and modular trays.
- High-end models:** \$120–\$150+, premium enclosures with IP68 rating, flame-retardant materials, and advanced cable management features.

Where to Buy

- Amazon:** Offers various fiber splice enclosures with adjustable capacity and environmental protection.
- Manufacturer Websites:** Corning and Fibconet provide detailed specifications and ordering options for high-quality enclosures.
- Made-in-China:** Suppliers offer dome-type enclosures with customizable features, often at...
