

How much should a network cabinet server rack cost

Overview

The cost of a server rack in the US can vary widely depending on its size, build quality, and features. Mid-range racks, offering better capacity and durability, usually cost between \$500. The good news is that network cabinet prices range from as low as \$100 for basic wall-mounted units to over \$3,000 for specialized outdoor models. However, understanding what drives these costs will help you make a smart buying decision. Entry-level racks, such as small wall-mounted units, typically range from \$200 to \$500. It costs \$200 at least to get an open frame rack, skyrocketing to \$5000 and above to purchase a server cabinet. It is also advisable to consider the system's installation cost, accessories, and additional. The cost per single rack in the data center depends on a number of factors as follows: The barebones price of a normal server rack ranges from 1000 USD dollars to 5000 USD dollars depending on the material used to make it, its dimensions, as well as additional features that come with it.
