

Junction Box Price Range

AI Overview

Junction box prices in the Philippines range from as low as ₱5 to over ₱240, depending on size, material, and function.

Price Range Overview

- Low-cost PVC boxes: ₱5–₱14, suitable for basic indoor electrical connections and DIY projects.
- Standard utility or junction boxes with covers: ₱11–₱88, commonly used for household wiring and light-duty applications.
- Waterproof or IP65-rated outdoor boxes: ₱31–₱39, designed to protect electrical connections from moisture, dust, and environmental damage.
- Metal junction boxes: Prices vary widely depending on size and quality, often available on platforms like Lazada and RS Philippines, typically higher than plastic boxes due to durability and industrial-grade protection.

Factors Affecting Price

- Material:** PVC and fiberglass are cheaper and corrosion-resistant, while steel or stainless steel boxes are more expensive but offer superior impact resistance.
- Size and Capacity:** Larger boxes or those designed to house multiple connections cost more.
- Functionality:** Outdoor, waterproof, or specialized boxes (e.g., for CCTV or industrial use) are priced higher due to added protection and features.
- Brand and Quality:** Well-known brands or certified electrical boxes may carry a premium.

Buying Tips

- For indoor residential use, PVC junction boxes with covers are cost-effective and easy to install.
- For outdoor or industrial applications, consider IP-rated waterproof boxes or metal enclosures to ensure safety and longevity.
- Check online marketplaces like Shopee, Lazada, Wilcon, and RS Philippines for competitive pricing and bulk purchase options.

By considering material, size, and intended use, you can select a junction box that balances cost, safety, and durability.
