

Main Industries of Network Security Equipment

Overview

The Network Security Market is Segmented by Security Offering (Solutions, and Services), Deployment (Cloud, On-Premises, and Hybrid), Enterprise Size (Large Enterprises, and Small and Medium Enterprises), End-User Industry (IT and Telecom, BFSI, Government and Defense . The Network Security Market is Segmented by Security Offering (Solutions, and Services), Deployment (Cloud, On-Premises, and Hybrid), Enterprise Size (Large Enterprises, and Small and Medium Enterprises), End-User Industry (IT and Telecom, BFSI, Government and Defense . HPE and Cisco led the global network hardware industry as of 2024. HPE's Aruba Networks accounted for almost ** Log in or register to access precise data. Get access now percent of the market, while Cisco commanded more than a quarter of the market with its range of network products. Log in or. Industry players have long been touting the benefits of AI-based operations (AIOps) to help resource-constrained network teams troubleshoot and remediate performance issues, and modern network services such as SD-WAN, 5G and SASE rely on AI to automate some network provisioning and security tasks. The network security market is projected to reach USD 84. 50 billion by 2025, up from USD 119.

Top 16 Network Security Devices [Updated 2025]

In this article, we will explore common types of network security devices, appliances and technologies that form a robust, multi-layered security strategy, including firewalls, intrusion

Enterprise Network Equipment Market Report | Industry Analysis, Size ...

The Enterprise Network Equipment Market worth USD 93.39 billion in 2026 is growing at a CAGR of 11.83% to reach USD 163.35 billion by 2031. Cisco Systems Inc., Huawei Technologies Co.

The 10 most powerful companies in enterprise networking 2023

Palo Alto Networks, Cisco, and Fortinet were identified as some of the star players in the network security market (global), given their strong market share and product footprint.

List of networking hardware manufacturers

Networking hardware typically refers to equipment facilitating the use of a computer network. Typically, this includes routers, switches, access points, network interface cards and other related hardware.

Global network hardware market share 2024| Statista

Get access now billion U.S. dollars in 2023. The main players in the network security equipment market are Palo Alto Networks, Fortinet, and Cisco, among others.

Security+ (Plus) Certification | CompTIA

Security+ V7 Security+ CompTIA Security+ is the premier global certification that establishes the essential skills required for core security functions and a career in IT security. It showcases

Network Equipment Market Size And Share Report, 2030

Network Equipment Market Summary The global network equipment market size was estimated at USD 144.7 billion in 2022 and is projected to reach USD 190.5 billion by 2030, growing at a CAGR of 3.7%

Network Security Market Size & Share | Statistics Report 2032

Network Security Market Size & Share 2023 to 2032 Market Size by Type (Firewall, Intrusion Detection & Prevention System, Network Access Control, Data Loss Prevention, Virtual Private Network),

Network Security Market Size, Share & Growth Report 2034

The global network security market size was valued at USD 46.3 Billion in 2025, expected to reach USD 136.1 Billion at a CAGR of 12.73% during 2026-2034.

The 20 Coolest Network Security Companies Of 2025:

From vendors offering SASE platforms and next-gen firewalls to those focused on protecting IoT, here's a look at the 20 network security

Network Equipment Market Size, Competitors & Forecast

Growth Opportunities: Analysis of growth opportunities in different end use industries, technologies, and regions for technology trends in the global network equipment market. Strategic Analysis: This

Network Security Equipment

This sub-industry focuses on devices that protect network infrastructure from cyber threats. In 2024, increasing cybersecurity threats drive demand for advanced security solutions.

Network Security Market Size & Share Analysis

Network Security Market Size & Share Analysis - Growth Trends and Forecast (2026 - 2031) The Network Security Market is Segmented by Security Offering (Solutions, and Services),

Welcome to Channel Dive | Channel Dive

Welcome to Channel Dive. We're Informa TechTarget's new publication, focused on delivering daily news and analysis for executives at North

Network Security Market Size, Share & Growth Report

The global network security market size was valued at \$28.58 billion in 2025 & is projected to grow from \$33.39 billion in 2026 to \$87.57 billion by 2034

Enterprise Networking Market Size | Industry Report, 2030

Enterprise Networking Market Summary The global enterprise networking market size was estimated at USD 215.45 billion in 2024 and is projected to reach USD 298.30 billion by 2030, growing at a CAGR

About: Better policies for better lives | OECD

Better Policies for Better Lives Artificial intelligence How to apply effective governance to harness the benefits of A.I. and mitigate its risks Climate mitigation and net-zero transition Analysis and insights

Network Security Market Size, Share, Growth, Forecast, 2034

Network security encompasses a vast array of technology, equipment, and procedures. Digital technologies have taken over every part of daily life, from simple smartphones used for

Network Security Tools, Devices and Solutions: What Enterprises Use

Discover the network security tools, devices, and solutions enterprises deploy in 2026. Covers NGFW, SIEM, NDR, ZTNA, DLP, leading platforms, and how to choose by organization size.

Network Security Market Size, Competitors & Forecast to 2034

The Network Security Market, valued at USD 46.3B in 2025, is projected to reach USD 136.1B by 2034, growing at a 12.7% CAGR.
