

Malaysia Stock Optical Modulator SFP

AI Overview

SFP Tech Holdings Berhad (SFP) is a Malaysian company specializing in automated equipment solutions, including optical modules like SFP transceivers, serving high-bandwidth data communications and industrial automation markets. Company Overview SFP Tech Holdings Berhad, founded in 2012 and headquartered in Bukit Mertajam, Malaysia, is an investment holding company that designs, develops, and manufactures factory automation and integrated equipment solutions both locally and internationally, including in the United States, South Korea, Singapore, Hong Kong, and China. The company operates through two main segments: Engineering Supporting Services and Automation. Its services include CNC machining, sheet metal fabrication, mechanical assembly, and automation solutions such as robotic handling, laser marking, and vision inspection systems. Financial Performance For the financial year ending 2022, SFP Tech recorded a profit before tax (PBT) of RM34.81 million and a profit after tax (PAT) of RM31.98 million, representing increases of 67.36% and 64.68% compared to 2021. The company continues to pursue diversification and expansion strategies to reduce dependency on specific industries and explore new business opportunities. Optical Modulator SFP Modules In Malaysia, SFP (Small Form-factor Pluggable) modules are widely used as hot-pluggable optical transceivers for high-bandwidth data communications. These modules typically feature an electrical interface connecting to internal systems and an optical interface connecting to fiber optic cables. SFP modules are essential for network scalability and reliability, and their performance depends heavily on the manufacturer and materials used. SFP Tech Holdings, through its automation and engineering services, supports the production and integration of such optical modules, including fiber optic laser systems and vision inspection systems. Applications and Market SFP modules are used in telecommunications, data centers, and industrial automation, enabling rapi...
