

Malta fiber optic sensors are available in stock

AI Overview

Fiber optic sensors are available in stock in Malta from multiple suppliers, including iAutomate (Malta) Ltd, RS Components Malta, and Mouser Electronics. Local Suppliers iAutomate (Malta) Ltd offers a wide range of fiber optic sensors and amplifiers suitable for industrial automation, including compact high-speed models, DIN rail mountable amplifiers, and optical slot sensors for precise object detection. Their products feature options such as analog outputs, IO-Link connectivity, laser or infrared emission, and adjustable detection settings for objects as small as 0.05 mm. RS Components Malta provides fiber optic sensors designed for proximity detection in tight spaces or applications requiring a small profile. Their inventory includes sensors with glass or plastic optical fibers, along with accessories and mounting options. International Suppliers Mouser Electronics stocks a variety of fiber optic sensors with detailed datasheets, pricing, and immediate availability for shipment to Malta. This includes through-beam, retro-reflective, and diffuse sensors suitable for industrial and laboratory applications.

Key Features to Consider

- Detection Type:** Through-beam, retro-reflective, diffuse, or optical slot sensors
- Speed:** Standard (200 μ s–5 ms) to super high-speed (10 μ s–1 ms) models
- Output Options:** Analog, PNP/NPN, or digital IO-Link
- Housing & Protection:** Metal housings with IP67 protection for industrial environments
- Adjustability:** Manual or plug-and-play models for easy setup

Conclusion If you are looking to purchase fiber optic sensors in Malta, both local distributors like iAutomate and RS Components, as well as international suppliers like Mouser, have products in stock. You can browse their online catalogs to select sensors based on speed, detection type, and connectivity requirements, and place orders directly for immediate delivery.
