

Manufacturer of Electric Cable Pulling Equipment for Optical Cables

AI Overview

Key manufacturers of electric cable pulling equipment for optical cables include Condux International, LANCIER Cable GmbH, Wuxi Longterm Cable Machinery, Thorne & Derrick International, and Katimex. Leading Manufacturers Condux International is a premier manufacturer of cable installation tools and equipment for telecom, fiber optic, and electric power markets, offering a wide range of specialized machinery for optical cable installation. LANCIER Cable GmbH provides high-quality cable laying equipment used globally for telecommunication cables, fiber optic cables, power cables, and cable ducts, focusing on efficient and economical installation. Wuxi Longterm Cable Machinery Co., Ltd specializes in optical fiber and optical cable machinery, including cable pullers, stranding lines, sheathing lines, and tension-controlled pullers. Their equipment supports precise traction and tension control, suitable for delicate fiber optic cables, and they offer customization and after-sales support. Thorne & Derrick International distributes a broad range of cable pulling and laying equipment for low, medium, and high voltage cables, including fiber optic applications. Their products include hydraulic and screw-type drum jacks, trailer-mounted cable winches, and capstan winches designed for controlled pulling tension. Katimex manufactures modern cable pulling winches and pushers, emphasizing mobility, safety, and compliance with industry standards. Their machines are suitable for long-distance and heavy cable pulls, including optical fiber installations.

Considerations for Choosing Equipment When selecting cable pulling equipment for optical cables, consider:

- Pulling tension control to prevent damage to delicate fibers
- Capacity and drum size compatibility
- Mobility and portability for installation in varied environments
- After-sales support and training for operators
- Customization options
