

Manufacturers of fire-resistant cable trays in Western Europe

AI Overview

Key Western European suppliers of fire-resistant cable trays include NIEDAX, Trayco, Beerenberg, and DKC Europe, all offering direct supply and specialized fire protection solutions. NIEDAX is a pioneer in fire-resistant cable support systems, providing solutions that maintain circuit integrity for critical systems such as elevators, emergency lighting, and reporting facilities during a fire. Their products comply with DIN 4102 standards, and they offer elaborated system solutions tailored to project requirements. Direct quotes and supply can be arranged by contacting the company or its local distributors. Trayco Based in Belgium, Trayco specializes in cable trays, mesh trays, and cable ladders with a focus on customized solutions and installation support. They provide advisory services to ensure the correct materials and fire-resistant systems are selected for each project. Trayco emphasizes direct supply and project-specific consultation for industrial and commercial installations. Beerenberg – Benarx Epoxy Cable Tray Beerenberg offers the Benarx Epoxy Cable Tray, designed for passive fire protection (PFP). This system protects critical power and signal cables, maintaining functionality during fire events. The epoxy trays are robust, reusable, and can be installed in all weather conditions without temperature control. Beerenberg provides direct supply and optional installation support services. DKC Europe DKC Europe is a leading European manufacturer of cable tray systems, including fire-resistant options. They supply a wide range of civil and industrial infrastructure solutions, offering direct procurement across Western Europe. Their systems are suitable for energy protection, transport, and distribution applications, with compliance to European standards. Additional Considerations When selecting a supplier, consider: Material type: epoxy, steel, stainless steel, or halogen-free plastic...
