

Military-grade optical module companies

Overview

For the past 35 years, Syntec Optics and Wordingham Technologies have manufactured precision optics and opto-mechanical components for the defense sector, including night vision systems, missile-guided systems, and military LED lighting. Syntec Optics and Wordingham Technologies produce. Military QPL and MCOTS Fiber optic interconnect technologies (MIL-DTL-38999 Type, MIL-DTL-83526 GFOCA Type, MIL-PRF-28876, ARINC 801 and more) deliver high data rate and high bandwidth performance in harsh land, sea, air, space and C4ISR applications. Precision-engineered QPL and commercial fiber. Kappa has over 40 years of experience in developing and manufacturing application-specific cameras and vision systems in extremely robust and certifiable designs for harsh environments. Our significant investments in cutting edge optical and machining technologies enable us to deliver. Leading provider of thermal imaging optics, with NATO country-based production site With state-of-the-art manufacturing facilities in Israel and NATO-member Romania, our commitment to excellence is clear in our high-performance IR optical elements and assemblies, meticulously crafted to meet the. Advanced EO Systems, Inc. provides state-of-the-art imaging systems, positioners and components for use in military, aerospace, and commercial applications.

Article Content

Military Surveillance Equipment, Optronics & Sighting | Defence

The list includes suppliers of military security camera systems, electro-optical (EO) cameras, thermal imaging, and infrared (IR) systems, rangefinders, night-vision devices, periscopes,

Optical systems for defense applications

Military systems require extreme durability and reliability as well as excellent optical quality in order to provide consistent operation in any circumstance. Meopta has the experience and technical capacity

Military Defense Lasers – Power Technology, Inc.

Lasers for Military Defense Precision Lasers Built for Defense and Aerospace Sectors
Power Technology, Inc. (PTI) is your trusted partner in high

About Us | | Advanced EO

We specialize in development and integration of electro-optical (EO) and infrared (IR) sensor systems and systems for space, airborne, ship and land-based

Infiniti Electro-Optics | Extreme Long-Range Surveillance Systems ...

Military-Grade Long-Range Surveillance Cameras Infiniti combines the most advanced electro-optics and video surveillance technologies

Optoelectronic Modules

We have designed and manufactured a full range of custom and standard optoelectronic devices for Military, Aerospace and Industrial applications

Military FPGA | Defense FPGA Suppliers | FPGA Modules

Military Field-Programmable Gate Array (FPGA) Modules are engineered for high-performance computing in defense and aerospace

Integrated Fiber Optics for Mission-Critical Systems

Molex examines the benefits of integrated fiber optics vs. copper cable assemblies in mission-critical systems. Thomas Heller, Account Manager,

FSI's Military-Grade Fiber Bundles for Defense

They provide defense contractors and military organizations with the robust, high-performance communication infrastructure necessary for modern defense

Top 20 Military Electro-Optical and Infrared (EO/IR) Systems Companies ...

The report also includes profiles and for some of the leading companies in the Top 25 Military Electro-Optical and Infrared (EO/IR) Systems Market, 2022 to 2032, with a focus on this

Custom Optical Fiber Solutions for Aerospace, Military, and Defense

Customized optical fiber products and services deliver superior testing, networking, and monitoring performance results for aerospace and military systems.

Military Surveillance Equipment, Optronics & Sighting | Defence

Military surveillance equipment, optronics and sighting systems allow defence forces to effectively locate, track, observe and engage a range of targets in land, airborne and maritime

Comprehensive Thermal Imaging Solutions for Defense

Discover a comprehensive selection of LWIR, MWIR and SWIR lenses in Single FOV, multiple FOV, and zoom configurations. Our product catalog features IR

Defense Optics | Technologies

For the past 35 years, Syntec Optics and Wordingham Technologies have manufactured precision optics and opto-mechanical components for the defense sector, including night vision systems,

Defense Vision Systems | Kappa optronics: Kappa optronics GmbH

Kappa has over 40 years of experience in developing and manufacturing application-specific cameras and vision systems in extremely robust and certifiable designs for harsh environments.

Tactical Solutions

MILITARY CABLES, TACTICAL ASSEMBLIES, & DEPLOYABLE REEL SYSTEMS OCC is a premier manufacturer of military-grade tactical fiber optic cable and connectivity solutions for the U.S. military.

Military Defense Lasers – Power Technology, Inc.

Power Technology, Inc. (PTI) is your trusted partner in high-performance laser diode modules, precision photonics, and custom OEM laser solutions for

Versitron explains military-grade optical modules, RFP-compliant ...

Versitron explains military-grade optical modules, RFP-compliant transceivers, and the function of BiDi SFPs—including how bidirectional SFPs work to optimize fiber infrastructure using

Military Fiber Optic Cable Solutions for Defense

Discover military-grade fiber optic cables, connectors, and systems designed for secure and high-performance military communications.

Military & Aerospace | Amphenol Active Optics Products

Military & Aerospace Embedded systems in military and aerospace rely on ever increasing sensing and processing power to operate, thus pushing the limits of data-throughput . The usage of fiber optics is

FIBER OPTICS

Why Choose Fiber Optics? Fiber optic interconnect solutions are ideally suited for high speed, high reliability, EMI/RFI immune, digital data transmission in harsh environment applications such as

Rugged Fiber-Optic Transceiver Modules for Mission-Critical

OptoMedia is a leading provider of fiber optic modules for mission-critical defense, military, and government communications. Engineered to withstand highly challenging environmental conditions,

Optical transceivers

Articles, news, products, blogs and videos covering the Buyer's Guide > Electro-Optics > Optical transceivers market.

Fiber Optic Connectors, Termini, Cable Assemblies,

Precision-engineered QPL and commercial fiber optic contacts, or termini (M29504/04, M29504/05, M29504/14, M29504/15, M29504/16, M29504/18, and

Military Transmit and Receive Module Companies

Military Transmit and Receive Module industry insights on factors that are driving the growth of the Military Transmit and Receive Module Market and key players along with their go to market

Military Fiber Optic Connectors

Military fiber optic connector companies & suppliers of MTP/MPO, ST, & tactical military grade fiber connectors for defense applications

Military - QPC Fiber Optic, LLC

Military For more than 25 years QPC Fiber Optic has worked with the United States Department of Defense, North Atlantic Treaty Organization (NATO) Militaries,

Military-Grade Fiber Optics with Expanded Beam

Micropol Fiberoptic is a developer of passive fiber optics technologies, including expanded beam fiber optic connectors, for military, defense, and security

Defense Thermal Imaging Cameras

Teledyne FLIR OEM thermal solutions lead the industry in defense applications. Setting the standard in thermal imaging performance and Size, Weight, and Power (SWaP) optimization, they provide
