

Namibia Export Integrated Distribution Cabinet Intelligent Type CIF Price

AI Overview

To export Intelligent Type Integrated Distribution Cabinets to Namibia, CIF pricing must include product cost, shipping, insurance, and applicable customs duties and VAT, which can be estimated using Namibia's eTariff tools. Tariff Classification and Duties Namibia applies the SACU Common External Tariff (CET) for all imports, including electrical equipment like distribution cabinets. Each product must be classified under the Harmonized System (HS) code, which determines the customs duty rate. For electrical distribution cabinets, the relevant HS code typically falls under electrical machinery and equipment (HS Chapter 85), but the exact 8-digit code should be verified using the NamRA eTariff portal. Customs duties in Namibia can be: Ad valorem duties (percentage of CIF value) Specific duties (fixed amount per unit) Mixed or formula duties in some cases VAT and Other Taxes Imported goods are subject to 15% Value-Added Tax (VAT) on the CIF value plus customs duty.

Additional levies or excise duties may apply depending on the product classification, though standard electrical equipment usually incurs only customs duty and VAT. CIF Price Calculation CIF (Cost, Insurance, and Freight) price includes: Cost of the product (FOB price at origin) Freight charges to Namibia port Insurance covering shipment Customs duty (calculated using the HS code and SACU CET) VAT (15% on CIF + duty) The formula is: $\text{CIF Price (Total Landed Cost)} = \text{FOB} + \text{Freight} + \text{Insurance} + \text{Customs Duty} + \text{VAT}$ Tools for Accurate Estimation Namibia provides online tools to estimate duties and taxes: NamRA eTariff Portal: Search by HS code or product description to find applicable duties. Duty Calculator: Estimate customs duty and VAT for your shipment based on CIF value and HS code. Tariff Book: Provides detailed schedules and preferential trade agreements (SADC, AfCFTA, EU EPA) that may red...
