

## News on Ethiopian Optical Modules

### Overview

In 2025, shipments abroad of optical fibers and bundles was finally on the rise to reach X tons for the first time since 2020, thus ending a three-year declining trend. Overall, exports saw a significant expansion. ATW Technology, a high-technology company specializing in intelligent inspection equipment for semiconductor and optoelectronic applications, today announced that it has received a bulk purchase order for dozens of optical module AOI systems from a major domestic optical communications customer. As Ethiopia embarks on its "Digital Ethiopia 2025" strategy, the demand for robust, high-speed optical communication infrastructure has never been more critical. At LumoWave Optical Technology Co. Overall, consumption showed a relatively flat trend pattern. From 2015 to 2025, the growth of the. The 2025 Chinese Volunteer Doctors' Medical Aid Campaign was recently launched in Addis Ababa, the capital of Ethiopia. The opening ceremony was attended by Ethiopian President Taye, Chinese Ambassador to Ethiopia Chen Hai, Ethiopian Minister of Health Mekdes, government officials, business.
