

Outdoor distribution box with neutral line

Overview

Outdoor electrical box panels and junction boxes protect wiring and power distribution in yards, workshops, and RV setups. Now that you have selected the version, check how many module units you need. We have fuse. □Wide range of uses□Suitable for outdoor installation, such as connecting solar energy, car charging posts, etc. Made of high. A distribution box is a low-voltage electrical enclosure that receives incoming power and distributes it safely to multiple outgoing circuits through protective and switching devices such as MCBs, RCDs, RCBOs, fuses, isolators, busbars, neutral bars, earth bars, and surge protective devices. Each product. All SELHOT distribution boxes are manufactured in our ISO 9001 certified facility and tested per IEC 60529 (ingress protection) and EN 60670-1. Ingress protection ratings are defined under IEC 60529.
