

Polymer Cable Tray Agency Brands

AI Overview

Leading polymer cable tray manufacturers include Yongchang FRP, CREO Composites, Ebo Systems, and Shilden, offering durable, corrosion-resistant solutions for industrial and commercial applications. Key Manufacturers and Offerings

Yongchang FRP specializes in polymer cable trays made from high-tech materials such as PVC, ABS, and polyphenylene oxide. Their trays are designed for petroleum, chemical, textile, electric power, machinery, transportation, and civil construction sectors, offering strong heat resistance, flame retardancy, high insulation, and corrosion resistance, making them suitable for harsh environments and long service life.

CREO Composites provides EDGE TRAY FRP systems, engineered for industrial demands with exceptional corrosion resistance, high strength-to-weight ratio, and fire-retardant properties. Their trays are modular and can be customized using orthophthalic, vinyl ester, or phenolic resins to meet specific fire, chemical, or outdoor exposure requirements.

Ebo Systems, part of the Niedax Group, offers GRP cable trays with over 60 years of expertise. Their products are recognized for extreme durability under corrosive environments, high temperatures, and heavy loads. Manufacturing methods include continuous pultrusion and hot pressing, ensuring long-lasting performance in sectors like energy, transportation, and chemical industries.

Shilden supplies a wide range of cable trays, including fiberglass-reinforced plastic (FRP/GRP) options. They provide ladder, perforated, wire mesh, solid bottom, and channel trays suitable for industrial plants, offshore platforms, data centers, and renewable energy projects. Their trays are corrosion- and fire-resistant, with custom solutions available for specific project requirements.

Advantages of Polymer Cable Trays

- Corrosion Resistance:** Ideal for chemical, marine, and industrial environments.
- Fire Retardancy:** Many polymer trays meet stringent fire safety standards.
- Lightweight and Strong:** High strength-to-weight ratio allows ease...
