

Price of Climbing Cable Tray Supports

AI Overview

The price of climbing cable tray supports varies widely depending on type, material, load capacity, and supplier, typically ranging from \$10 to over \$100 per support.

Types of Cable Tray Supports

- Hanging Supports** Designed to suspend cable trays from ceilings or beams, hanging supports are height-adjustable and ideal for overhead installations. They often use U-profile, I-profile, or C-channel stems with welded top plates and cantilever arms or trapeze brackets for secure attachment.
- Wall Supports** Mounted directly on walls, these provide a solid anchoring point for cable trays. They are suitable for permanent installations and come in various sizes and styles.
- Floor Supports** Used when trays need to be installed on the floor, these supports offer a stable base and protect cables from moisture or direct contact with the ground.
- Stair Supports** Specifically designed for securing cable trays on stairs, these supports handle additional weight and provide safe cable routing across different levels.
- Clamps and Brackets** Heavy-duty clamps, C-clamps, and channel assemblies attach trays to beams or channels, with load capacities ranging from 300 lbs to 500 lbs per support.

Factors Affecting Price

- Material:** Zinc-plated steel, stainless steel, or copper alloy options affect cost and corrosion resistance.
- Load Capacity:** Supports rated for higher loads or industrial applications are more expensive.
- Adjustability:** Height-adjustable or perforated supports for flexible installation tend to cost more.
- Brand and Supplier:** Premium brands like Legrand, Cablofil, or Schneider Electric may charge higher prices for quality and reliability.
- Quantity and Bulk Orders:** Buying in bulk can reduce per-unit cost.

Estimated Price Range

- Light-duty supports: \$10–\$30 per unit
- Medium-duty supports: \$30–\$60 per unit
- Heavy-duty or industrial supports: \$60–\$120+ per unit

For exact pricing, it is recommended to check suppliers such as McMaster-Carr, RS Components, MP Husky, Ekabel24, or GroupSumi, as prices vary by region, material, and load rating. Choosing the right support involve...
