

Price of Outdoor Waterproof Distribution Box

AI Overview

Outdoor waterproof distribution boxes typically range from \$15 to \$150 or more, depending on size, IP rating, and material.

Price Overview

Small ABS Plastic Boxes (IP65–IP67): Compact boxes suitable for small circuits or solar/LED installations are priced around \$15–\$40. For example, a 150 x 150 x 90 mm IP67 ABS plastic box is available on Amazon for approximately this range, offering shock resistance, electrical insulation, and wall-mounting options.

Medium DIN Rail Boxes (IP65): 12-way or similar DIN rail distribution boxes, often used for residential or light commercial applications, cost around \$30–\$70. These boxes provide IP65 waterproofing, transparent covers for monitoring, and ABS construction.

Larger or Industrial-Grade Boxes (IP65–IP68): For industrial or outdoor installations requiring more circuits, UV resistance, and robust materials (ABS or polycarbonate), prices can range from \$80–\$150+. Suppliers like SinoBreaker and ZCEBOX offer AT and HT series enclosures with IP65–IP68 ratings, UV-stabilized housings, and options for DIN rail mounting.

Factors Affecting Price

Ingress Protection (IP) Rating: Higher ratings (IP66–IP68) provide better water and dust resistance, increasing cost.

Material: ABS is common and cost-effective, while polycarbonate or metal enclosures offer higher durability and UV resistance.

Size and Capacity: Larger boxes with more internal space or multiple DIN rails are more expensive.

Accessories and Pre-Assembly: Boxes with mounting plates, cable glands, or pre-wired configurations may add to the price.

Certifications: CE, ROHS, UL, or other compliance certifications can influence cost, especially for industrial or commercial use.

Buying Tips

Confirm the IP rating matches your outdoor exposure needs. Check dimensions carefully to ensure your devices fit. Consider UV-stabilized or corrosion-resistant materials for long-term outd...
