

Price of Ribbon Frame Optical Cable

AI Overview

Ribbon optical cable prices vary widely, ranging from \$0.02 per meter for basic bulk cables to over \$7,500 for high-core, long-distance single-mode cables.

General Price Ranges

- Low-cost bulk cables:** Basic ribbon optical cables, such as 2-24 fiber cores, can cost \$0.02-\$0.35 per meter when purchased in large quantities from manufacturers in China.
- Indoor/Plenum or Riser cables:** Single-mode or multimode ribbon cables for indoor use typically range from \$0.49 to \$2.53 per meter, depending on fiber count (4-12 fibers) and cable type (gel-filled, LSZH, or flat ribbon).
- High-density or outdoor cables:** Large-core outdoor cables, such as 144-864 fiber single-mode armored or dielectric ribbon cables, can cost \$0.65-\$2.75 per meter for bulk orders, with some specialized high-core cables priced at \$62-\$206 per 1,000 meters.
- Premium or specialized cables:** Ultra-high fiber count cables (e.g., 864-core Corning Rocket Ribbon) are priced around \$2.25 per foot or higher, depending on delivery and specifications.

Very large-scale, long-distance single-mode cables for data centers or backbone networks can reach \$4,500-\$7,500 for 2 km.

Factors Affecting Price

- Fiber Count:** Higher fiber counts (up to 3,456 fibers) increase cost due to material and manufacturing complexity.
- Cable Type:** Armored, gel-filled, or LSZH jackets add to the price compared to standard dielectric cables.
- Mode Type:** Single-mode cables are generally more expensive than multimode due to lower attenuation and higher performance standards.
- Length and Bulk Orders:** Prices per meter decrease significantly for bulk purchases, while small quantities or custom lengths are more expensive.
- Supplier and Region:** OEM factory direct purchases from China offer lower prices, whereas U.S. or European distributors may charge higher rates due to shipping and compliance costs.

Summary

- For most practical applications:
- Small indoor projects: \$0.50-\$2.50 per meter
- Medium outdoor/backbone projects: \$0.65-\$2.75 per meter
- High-capacity, long-distance networks: \$2.25 per foot to sev...
