

Price of T-joint cable in cable tray

AI Overview

The price of a T-joint cable tray fitting varies widely depending on material, size, and manufacturer, typically ranging from a few dollars for PVC models to higher costs for galvanized or stainless steel versions. Factors Affecting Price

Material Galvanized steel or stainless steel T-joints are durable and corrosion-resistant, suitable for industrial and commercial installations, and generally cost more due to their strength and longevity. PVC or thermoplastic T-joints are lighter, electrically insulating, and resistant to UV and chemical exposure, often used in electrical and telecommunication applications, and are usually less expensive than metal options.

Size and Compatibility T-joints come in multiple sizes to fit various cable tray widths. Larger or custom-sized joints typically cost more. Compatibility with perforated, ladder, or insulated cable trays can influence the price, as specialized fittings may require additional manufacturing precision.

Finish and Standards Corrosion-resistant coatings, fire resistance (e.g., UL94 V0), and compliance with standards like REACH or ROHS III can increase the cost. Insulating or non-flame-propagating materials are often priced higher due to safety certifications and reduced maintenance requirements.

Quantity and Supplier Wholesale purchases, such as through Alibaba, can reduce per-unit cost, while single-unit retail purchases may be more expensive. Regional suppliers and shipping costs also affect the final price.

Typical Price Range

- PVC T-joints: Approximately \$5–\$20 per unit, depending on size and certification.
- Galvanized or stainless steel T-joints: Typically \$15–\$50 or more per unit, depending on dimensions and finish.
- Wholesale bulk orders: Prices can be lower per unit, especially for standard sizes and materials.

Recommendation For an accurate price, it is best to contact local distributors or online suppliers with the specific material, size, and quantity requirements. This ensures compatibility with your cable tray system and provides the most current pricing. Suppliers like Kim Lo...
