

Price of Zinc-plated Cable Tray Brackets

AI Overview

Zinc-plated cable tray brackets typically range from £5 to £20 per bracket, depending on size, type, and supplier. Overview Zinc-plated cable tray brackets are used to securely mount wire mesh or solid cable trays to walls or other structures. The electro zinc (EZ) plating provides corrosion resistance, making them suitable for indoor electrical installations and industrial settings. Common types include triangle wall brackets, trapeze supports, and universal side supports, compatible with standard wire basket trays. Price Range Small wall-mount or triangle brackets: Approximately £5–£10 per bracket for single or small packs. Larger or heavy-duty brackets: Around £15–£20 per bracket, often sold in packs or bulk quantities. Bulk or trade orders: Many suppliers, such as DirectChannel and Platt Electric, offer discounted pricing for orders of 50 or more, but exact prices require contacting the supplier. Where to Buy DirectChannel UK: Offers electro zinc wall brackets for cable trays with fast UK delivery and trade pricing options. NavePoint: Sells electro zinc-plated triangle wall brackets in packs of 2, suitable for industrial and commercial installations. Platt Electric Supply: Provides a wide range of zinc-plated cable tray accessories, including splicers, dropouts, and universal brackets, often in bulk. TradeSparky: UK-based supplier offering multiple brands and sizes of tray brackets and hangers for domestic and industrial use. Tips for Purchasing Check compatibility with your cable tray system (wire mesh, ladder, or solid tray). Consider bulk orders for cost savings if installing multiple trays. Verify load capacity and wall-mounting requirements to ensure safety and compliance. Request trade pricing directly from suppliers for large projects. By contacting suppliers directly, you can obtain exact pricing, shipping costs, and availability for your specific project needs.
