

Price of cable tray installation screws

AI Overview

Cable tray installation screws typically range from \$0.01 to \$3.50 per piece, depending on material, type, and pack size.

Typical Price Ranges

- Anchor Bolt Expansion Screws:** Zinc-plated screws for mounting cable trays to walls, ceilings, or floors are priced around \$3.21 per 3-foot rod with nuts and anchors at Walmart.
- Standard Stainless Steel or Carbon Steel Fasteners:** Individual screws or clips for wire mesh cable trays can cost \$0.01–\$0.50 per piece when purchased in bulk (100–1000 pieces) from suppliers like Alibaba or Accio.
- Pre-packaged Kits:** Coupler kits or multi-piece sets for connecting tray sections are available on Amazon for \$1.50–\$5 per screw equivalent, depending on the number of pieces and material finish.
- High-Performance or Specialty Screws:** Screws designed for heavy loads, corrosion resistance, or industrial applications may cost \$1–\$3.50 per piece, often sold in smaller packs for professional installations.

Factors Affecting Price

- Material:** Stainless steel (304/316) and galvanized steel are more expensive than standard carbon steel due to corrosion resistance.
- Pack Size:** Bulk purchases reduce the per-piece cost significantly.
- Type of Fastener:** Expansion screws, carriage bolts, rivets, and clips vary in price based on load capacity and installation method.
- Supplier and Shipping:** Prices differ between local suppliers, online marketplaces, and international manufacturers.

Recommendations

- For commercial or industrial installations, consider stainless steel or zinc-plated screws for durability.
- For bulk projects, buying from suppliers like Alibaba or Accio can reduce costs per piece.
- For small-scale or DIY installations, Walmart or Amazon kits provide convenient pre-packaged options with all necessary components.

By comparing suppliers and considering material and pack size, you can select cable tray screws that balance cost, durability, and installation efficiency.
