

Price of hexagonal connectors for fiber optic cable splices

AI Overview

Hexagonal fiber optic connectors for splices typically range from \$1.63 to \$20 per piece depending on type, quantity, and vendor. Retail and Online Pricing eBay offers 5-pack SMA905 hexagonal fiber optic connectors for \$16.91–\$20.55, with free or low-cost shipping depending on the seller. Larger packs or premium options may cost up to \$37.99 for 5 pieces. DigiKey lists individual hexagonal fiber optic plug connectors in bulk starting at \$1.63 per piece for simplex singlemode connectors, with prices increasing for duplex or higher-performance models up to \$2.78 per piece. CableWholesale provides SC/APC and LC splice-on connectors in packs of 10–100, with prices ranging from \$0.54 to \$13.15 per piece, depending on connector type, fiber mode, and boot size. DirectIndustry and industrial suppliers offer specialized hexagonal connectors for fiber optics, with prices varying widely based on current, voltage rating, and material, typically in the \$10–\$50 range for standard industrial-grade connectors. Factors Affecting Price Connector Type: SMA905, FSMA, LC, SC, and ST connectors have different manufacturing costs. Quantity: Bulk orders significantly reduce per-piece cost. Fiber Mode: Singlemode (OS1/OS2) connectors are generally more expensive than multimode (OM1–OM4). Material and Finish: Metal ferrules and high-precision hexagonal nuts increase cost. Vendor and Shipping: Prices vary between online marketplaces, industrial suppliers, and local distributors. Summary For small-scale purchases, expect \$16–\$20 for a 5-pack of SMA905 hexagonal connectors. For bulk or industrial-grade connectors, prices can drop to \$0.50–\$2 per piece for standard simplex connectors, while high-performance or splice-on connectors may cost \$10–\$20 per piece or more. Always check vendor specifications and shipping costs when budgeting for fiber optic splicing projects.
