

Price per unit of 6-core fiber optic cable for smart buildings in Dubai

AI Overview

The price of a 6-core fiber optic cable in Dubai typically ranges from AED 5 to AED 30 per meter, depending on type, jacket, and installation requirements.

Pricing Overview For 6-core fiber optic cables suitable for smart building applications in Dubai, prices vary based on fiber type, construction, and environmental rating. Standard multimode OM3 cables for internal or external use generally cost AED 5–30 per meter. High-end or armored cables, designed for harsh environments or rodent resistance, can exceed AED 50 per meter.

Factors Affecting Price

- Fiber Type:** Single-mode cables are usually less expensive per meter than multimode, but require more costly termination equipment.
- Jacket Material:** LSZH (low-smoke zero-halogen) jackets are preferred for indoor smart building installations and are slightly more expensive than standard PVC.
- Armoring:** Armored cables (steel tape or wire) add 20–50% to the base cost, providing protection for outdoor or high-risk areas.
- Bulk Purchase:** Buying in large quantities can significantly reduce per-meter costs and ensure batch consistency.
- Installation Method:** Indoor duct runs are cheaper than underground or aerial installations, which can increase total project costs.

Typical Unit Costs

- Standard 6-core multimode OM3 cable (non-armored, LSZH): AED 5–15 per meter
- Armored or high-capacity 6-core cable: AED 30–50+ per meter

Bulk procurement: Discounts may reduce the effective cost by 10–20% per meter.

Recommendations Confirm whether the project requires single-mode or multimode fiber. Specify jacket type, armoring, and environmental rating before requesting quotes. Compare multiple suppliers in Dubai to ensure competitive pricing and warranty coverage. Consider bundled deals including connectors, patch panels, and installation support for smart building networks. By evaluating these factors, you c...
