

Prices from fiberglass cable tray manufacturers

AI Overview

Fiberglass cable tray prices vary based on material, dimensions, customization, and supplier; contacting manufacturers directly is the best way to obtain accurate quotes. Supplier Options and Pricing Fiberglass cable trays are available from numerous manufacturers and suppliers worldwide. Platforms like Alibaba list over 600 suppliers offering OEM, ODM, and patented designs, allowing you to compare prices and request quotes directly from multiple vendors. Companies such as FRP Fibertech and NHC FRP provide high-quality trays with customizable dimensions, corrosion resistance, UV protection, and fire-retardant properties. Uniflex specializes in trays for harsh environments like offshore oil and gas, offering both polyester and vinyl ester resin systems with ASTM-certified flame ratings.

Factors Affecting Price

Material and Resin Type: Fiberglass trays are made from Fiber Reinforced Plastic (FRP), with options for polyester or vinyl ester resins. Vinyl ester tends to be more expensive due to higher corrosion resistance.

Dimensions and Customization: Standard trays are typically 3 meters long with side rail heights from 50mm to 300mm and thickness of 3–4mm, but custom widths, heights, and colors can increase cost.

Load Capacity and Strength: Trays designed to match steel load capacity or for heavy-duty industrial use may carry a premium.

Certifications and Standards: Compliance with ASTM E-84, Class 1 Flame Rating, ISO 9001, ISO 14001, and ISO 45001 can affect pricing.

Quantity and Shipping: Bulk orders often reduce per-unit cost, while international shipping or expedited delivery may increase the total price.

How to Obtain a Quote

Direct Contact: Reach out to manufacturers like NHC FRP or suppliers on Alibaba to request a tailored quote based on your specifications.

Provide Specifications: Include tray length, width, height, thickness, resin type, color, and a...
