

Pz30 8 circuit distribution box

Overview

The PZ30 series distribution box is a plastic electrical enclosure designed for housing circuit breakers, MCBs, and other low-voltage components. Check each product page for other buying options. Available in both surface and flush mount versions, these boxes feature a transparent cover, durable ABS construction, and multiple size options (2-36). We are Specialized in producing and supplying portable distribution box, waterproof plug, socket, circuit breaker, wall switch, waterproof plastic and Aluminum box. passed CE, IP66, ROHS certificates. Advanced process technologies, standard production. PZ30 Modular Terminal Combination Device fits 220V/380V, 50Hz systems (max 100A total load) for single-phase three-wire or three-phase five-wire end circuits. Product Features Modular Design CHINT circuit breaker price Adopts a 9mm modular design, allowing the installation of various modular terminal electrical.
