

Retail Price of Fireproof Cable Trays in Finland

AI Overview

Fireproof cable trays in Finland typically range from €50 to €200 per meter depending on material, fire rating, and supplier, with exact prices requiring direct supplier quotes.

Market Overview The Finnish cable tray market is mature and highly regulated, with strong emphasis on fire safety, durability, and compliance with EU and Nordic standards (). Fire-resistant cable trays are widely used in industrial plants, energy facilities, hospitals, data centers, and public infrastructure, where uninterrupted power supply and safety are critical (). Suppliers include domestic manufacturers, European distributors, and global specialists, creating a competitive environment that values technical support and certified products ().

Factors Affecting Price

Material and Construction: Steel, stainless steel, and aluminum trays vary in cost. Fireproof coatings or integrated fire-resistant materials increase the price ().

Fire Rating: Products tested according to EN 1363-1 or similar standards command higher prices due to verified performance under fire conditions ().

Tray Type: Ladder, perforated, and solid-bottom trays differ in manufacturing complexity and load capacity, affecting cost ().

Length and Accessories: Prices are often quoted per meter, with additional costs for bends, joints, fasteners, and fire-rated accessories ().

Supplier and Service: Direct purchase from distributors like Onninen or Meka may include technical support, installation guidance, and warranty, influencing the final retail price ().

Typical Price Range While exact retail prices are not publicly listed online, industry estimates suggest:

- Standard fireproof cable trays: €50–€100 per meter
- High-performance or certified fire-resistant trays: €120–€200 per meter
- Specialized solutions for critical infrastructure: Prices may exceed €200 per meter depending on fire rating, material, and custom specifications ().
