AI Overview

Atlas Copco and Yallouris Constructions are key providers of power distribution solutions and construction services in South Sudan, while JEDCO manages electricity distribution in Juba. Key Providers and Manufacturers Atlas Copco South Sudan offers a wide range of power equipment, including transformers, inverters, and switchgear solutions suitable for construction and industrial projects. Their products are designed for reliability, safety, and efficiency, supporting both traditional and renewable energy applications. While they may not manufacture all distribution boxes locally, they provide tailored solutions and equipment that can be integrated into construction projects. Yallouris Constructions is one of South Sudan's largest construction companies, specializing in civil engineering, building construction, and power plant projects. They provide heavy civil services for power and hydroelectric projects, including site clearing, material transportation, and installation of electrical infrastructure. Their expertise in reinforced concrete and steel structures makes them a potential partner for integrating power distribution boxes into construction projects. Juba Electricity Distribution Company (JEDCO) is the sole licensed electricity distributor in Juba, South Sudan. While JEDCO primarily handles electricity distribution and grid management, they collaborate with construction and power companies for installation and maintenance of distribution systems. They can provide guidance on compliance, safety standards, and connection requirements for constr...
